EXPERIENCE

- 2017- Architect - Grimshaw Architects - New York, NY

Designed a series of adaptable bus station concepts for the city of Doha, Qatar. Was responsible for research and development of best-practice design and programming standards that could be deployed at all future station developments (2017). Coordinated with terminal infrastructure, structural, environmental, and other consultants in order to develop and refine concepts for the Washington Union Station Expansion Project (2017-2018).

- 2014-2016 Designer - Utile, Inc. - Boston, MA

Developed key ideas and details for the Jamaica Plain Library (2014-2016), and did the schematic design of the Dudley Branch Library (2016). Managed a feasibility study for a high-rise project in New York (2016). Completed DD and CD sets for two major interior renovation projects, one of which was MIT's Department of Urban Studies and Planning (2015-2016). Was responsible for the CA phase at MIT including submittal review, RFI responses, and coordination with engineers and contractors in the field.

- 2013 Intern - Machado and Silvetti Associates - Boston, MA

Designer for multiple competitions including the winning entry for the Vietnamese-German University and the urban master plan for a new financial exchange district in Kuala Lumpur. Constructed a complex architectural model for the Menokin Foundation in Virginia.

- 2012 Intern - Yamakyo Construction Co. - Matsumoto, Japan

Studied traditional Japanese joinery under a master carpenter. Completed a number of works, including a pavilion which I designed and built. Assisted in the preservation and restoration of a historic Japanese home.
